

GIVE HIM A HAND!

HELP NATURE STAY IN CONTROL

Amphibians like the Four-lined Tree Frog are facing great threats! About one third of the 6000 species worldwide are threatened with extinction due to global warming, air and water pollution and deforestation.

GREEN WAVE ENVIRONMENTAL CARE COMPETITION 2009

Every day, the Four-lined Tree Frog and others like him are becoming better at hopping, just so they could run away from the destruction of their habitat! If you think you have what it takes to save this little frog and his clan from vanishing, it is time to do something about it! Put on your thinking cap and let your creative juices flow. It doesn't matter if you can't save a whole forest. Who knows, your innovative ideas could help make the planet a better place not only for human beings, but also for other animals, plants and insects too! Help nature stay in control and you could be helping yourself to some very attractive cash prizes too!

	PRIMARY SCHOOLS	SECONDARY SCHOOLS	JUNIOR COLLEGES & ITES	TERTIARY INSTITUTIONS
