

Floating Paradises In Sembawang

The first 4 months of the year also saw Sembawang Shipyard drydock and repair the cruiseships **Seabourn Spirit** and **Nieuw Amsterdam** from Cunard Line Ltd and Holland American Line respectively. Both companies are part of Carnival Corporation of USA, the largest cruise operator in the world. Carnival Corporation owns 6 cruise brands besides its home brand Carnival Cruise Lines. These include Holland American Line-Westours, Cunard Line, Windstar Cruises, Costa Crociere and Airtours. Most of these cruise lines have repaired their ships in Sembawang Shipyard in the past. **Seabourn Spirit** is an annual visitor to our Yard while **Nieuw Amsterdam** was repaired for the first time this March. Major work carried out on **Nieuw Amsterdam** include installation of a new jacuzzi, tank modification, and the installation of pipes in the freshwater tank. Sembawang Shipyard has also repaired

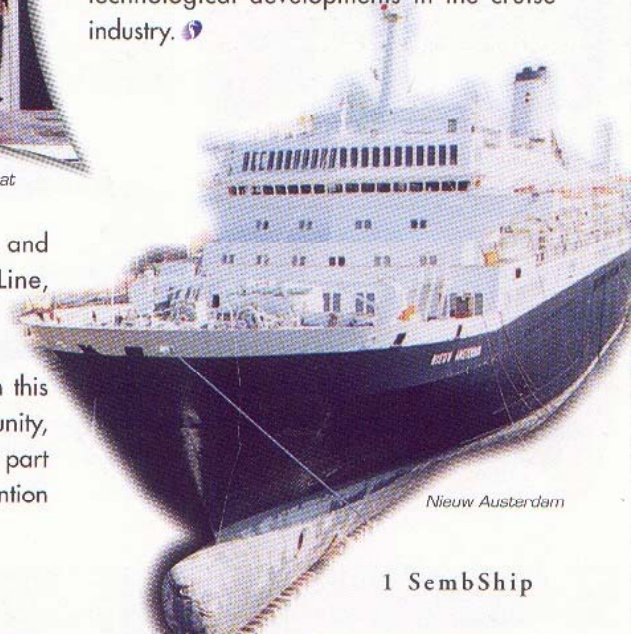

Mr Tan Ah Tee & our US agent Mr Walter Gregorek at Miami Convention.

Wind Spirit from Windstar Cruises and numerous cruiseships from Cunard Line, including **Sea Goddess II**.

To market our services and expertise in this area to the international cruise community, Sembawang Shipyard once again took part in the Seatrade Cruise Shipping Convention

in Miami, USA, held in March this year. Our representatives Mr Tan Ah Tee, Assistant Marine Engineer (M&E) and Mr Pang Hang Toon, Commercial Executive, were at the one-week show to touch base with our clients as well as keep up-to-date with new technological developments in the cruise industry.

Nieuw Amsterdam
