

New Members For Our SUNDOWNER'S Club!

Some of our happy guests at the weekly's Friday Sundowner. Don't they look good out of their boilersuits?

Sembawang Shipyard's weekly Friday Sundowner is world-renowned among the shipping community. It is a "happy-hour" cocktail party held over two hours especially for Superintendents and senior ship staff of vessels undergoing refits in the Shipyard. Yet, it is not uncommon to have many of our valued guests who were passing through Singapore, to drop in to say "hello." There were frequently happy reunions of old buddies who had not seen each other for years but crossed paths again at the Sundowners or "missing" persons reconnected through the networks of our Sundowner Club.

To be a member of the Sundowner Club, one has had to superintend five refits in the Shipyard and mark his membership inception by serving drinks at the bar for the evening. We have since discovered that many may make competent Superintendents but not good barmen! In February, we are pleased to welcome two new members to our Sundowner Club; Mr Andrew Brown, Superintendent from

Mr Charles Herbol, Vessel Programme Manager from Maersk Line Limited (USA) who attended to *Sealand Meteor*, his 5th vessel in our yard.

BP Shipping and Mr Charles Herbol, Vessel Programme Manager from Maersk Line Limited who proudly received their special pewter mugs from Mr Toh Mun Tong, Senior Marine Manager. To-date, 189 members have been incepted into the Sundowner Club. A special prize awaits the 200th member, so do keep coming back and you may be the lucky winner. For all

Mr Andrew Brown, Superintendent from BP Shipping Ltd (UK) who attended to the *British Pioneer* in January 2006.

you know, the lucky Superintendent may get his vessel repaired at no cost!

We were also presented gift mementos from BP Shipping and Maersk Line Limited to commemorate successful redeliveries of their vessels to stringent quality and HSE standards. These mementos would have pride of place adorning the walls of our VIP Rooms. ⚓
