

# Mementos for Good Jobs Done!

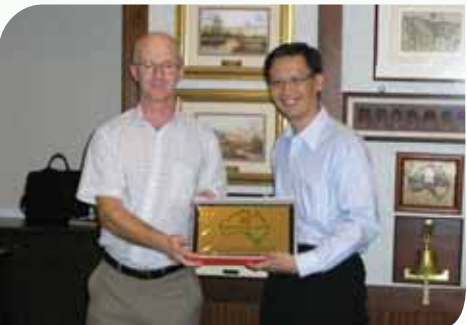

In recent months, we are pleased to witness several exchanges of mementos with our customers, commemorating not only the successful refits but also the close team work and friendships cultivated. These included a series of vessels for our Alliance and FCC partners including customers from the niche markets of passengerships, navy ships and LNG carriers. ⚓

### New Member of our Sundowner's Club!

We are pleased to welcome the 171st member to our renowned and prestigious Sundowner's Club on 15 June 2007. Our latest member is Mr. Robert Vosnick, Port Engineer from Military Sealift Command, USA, who attended the vessel USNS Observation Island, his fifth time as Port Engineer in our yard. After receiving his personalised Sundowner pewter mug from Mr. Tan Ah Tee, Senior Marine Manager, Mr. Vosnick promptly served all guests at the bar counter, in keeping with our Sundowner's tradition for all new members as part of the celebration!

*A happy Mr. Robert Vosnick receiving the Sundowner's mug and serving beer to the guests*
