

Sembawang Shipyard wins the Best Repair Yard

Sembawang Shipyard was unveiled as the winner of the Seatrade Repair Yard Award 2010 in recognition of its status as a world leader in ship repair and proven expertise in delivering timely and cost-competitive solutions to customers, while achieving high quality, safety, security and environmental standards.

In conferring the award to Sembawang Shipyard, the judges noted our yard's

reputation, reliability, flexibility and cost effectiveness as part of the criteria in awarding this prestigious award. The yard's strong commitment to innovative solutions, Health, Safety, Security and Environment (HSSE), total reliability, timely deliveries and expert project management ensured that its reputation was trusted and valued by its international clientele. They also noted that Sembawang Shipyard, which repairs and converts some 200 vessels from

over 35 countries annually, also stood out with its strong leadership in the area of LNG repairs. In 2009, the yard completed 20 LNG projects including major life extension works on Northwest Sanderling. We are indeed proud to be the recipient of this prestigious award.
