

*World Discoverer*

Our world class reputation for specialised passengership conversion based on our excellent track record, innovative solutions, complete reliability, timely deliveries and expert project management, won us the major conversion of World Discoverer. Major work carried out included complete renewal of all cabin toilets, conversion of existing conference rooms/ cabins into newly furnished passenger cabins. New features added to the vessel included a new gallery, a restaurant, main entrance lobby, library and a new lounge.

The new look World Discoverer sailed gracefully from Sembawang Shipyard to commence her maiden voyage in May 2002.
